

***Talk can be cheap.
And that's a good thing.***

- Eliminate separate charges for phone service
- Reduce costly telecom infrastructure and maintenance/labor costs
- Integrate your cell phone, email and telephone-based communication tools
- Easy internet-based connectivity frees your workforce from the office walls—for greater mobility, and faster up time in case of disaster

Burgess Computer

One team • One call

Hosted VoIP Telecom Solutions for Business

- Imagine managing your company's phone system moves, adds, and changes from an easy-to-use web interface.
- Imagine calling people just by clicking on their contact information in Microsoft Outlook®.
- Imagine your voicemails being automatically delivered to you while you travel.

All this, and more, is possible with our revolutionary, high-quality Hosted VoIP PBX service.

A Telecom Partner You Can Trust

Let Burgess Computer guide you through the features, savings, and ease-of-use that can make Hosted VoIP PBX an excellent choice for business performance. Contact us for a free analysis of your telecom infrastructure and a demonstration of hosted VoIP.
