## **Managed Anti-Virus Agreement**

### ***SERVICES***

Burgess shall establish Managed Anti-Virus or SentinelOne services, as applicable, on supported User devices. Burgess Managed Antivirus and SentinelOne services combine Cloud management with real-time protection to provide dependable endpoint security. The managed anti-virus service and SentinelOne service leverage highly sophisticated detection methods to monitor and protect against malware threats, including zero-day vulnerabilities, in real time.

Support to monitor and maintain the Managed Anti-Virus service or SentinelOne service is included with your monthly fee. Virus removal, remediation or support to correct operating system malfunction is not included.

Although Managed Anti-Virus and SentinelOne use the latest viral scanning techniques and signatures, due to the rapidly evolving nature of viruses and malware it is not possible to guarantee protection.

2. Remote access for Vendor personnel

### ***FEES***

In exchange for the License and the Services provided by Burgess under this Agreement, User shall pay Burgess in advance a monthly fee based on the number of covered devices for the User.
